Mobile number: +37063179930

City: Vilnius

About me:

Self-taught programmer is looking for a job in web development industry. My programming experience comes from various subjects of studies in university, Bachelor's project, self-learning from open sources. I specialize in back-end and front-end web development, mostly using Node.js and PHP for back-end and JavaScript, CSS3, HTML5 for front-end. I am highly motivated to start my career as a web developer, because programming is my hobby and passion for a long time, I have been eager to expand my knowledge in real work environment by learning from experienced developers and offering my skills and knowledge in return.

Education:

Bachelor of Computer Science - Information systems engineering | 2017 - 2021 | Vilnius Tech university

Master of Computer Science - Security of information and information technologies | 2021 – 2023 | Vilnius Tech university

Socials:

LinkedIn: <https://www.linkedin.com/in/au%C5%A1rys-mikoli%C5%ABnas-520b93214/>

GitHub: <https://github.com/ausrys/>

Digital resume: https://ausrys.github.io/resume_page/

Skills and Knowledge:

- Programming for a few years as a hobby and for studies
- Have touched multiple programming languages, so learning a new one would not be an issue

- Did a recommender system for my Bachelor's project with Node.js
- Have a decent understanding in machine learning and deep learning
- Most efficient in JavaScript, Node.js
- Basic knowledge of:
 - SOLID patterns
 - Consumer/Producer pattern
 - OOP
 - Linux
 - Java, Python
 - RESTFull API concept

Tech stack:

Back-end: NodeJS, PHP

Front-end: JavaScript, CSS3, HTML5, React

Frameworks: Express, Laravel

Databases: MySQL, MongoDB

Extras: Jira, Postman, Git

Started learning: ReactJs, React-native

Soft Skills:

Solution design - I always strive for a better solution, which would improve everyone's work

Teamwork - I love working in a team where you can depend on others or share your knowledge

Teamplayer - I like to be the one who brings everyone together

Self-improving - I try to expand my knowledge whenever I can, because it helps to open new opportunities

Creative thinking - I am not afraid to suggest my own ideas and defend them if I believe they are right solution for a problem

Work history:

Monitoring Specialist | Bank of Lithuania

2022/02 - Present

Constant monitoring of key bank systems, informing of problems and/or problem solving

- Monitoring with tools like "SolarWinds", "Kibana"
- Daily logs inspection
- Improving ecosystem of an alerting system
- Solving incidents

Workplace Specialist | Geological Service of Lithuania

2020/11 - 2021/6

Solving low level daily problems in a workplace

- Preparing workplace station for new employees
- Solving everyday problems like software, network, hardware errors
- Daily inventory tasks like its renewal
- Simple maintenance of hardware like printers, computers
